The installation of this bellhousing will require the transmission to be moved forward 2" to 2.5" so drive shaft modifications are required.

This kit requires a 1" body lift and a 4" suspension lift.

Optional items:

716670  
716672  
714450

**Special Note:** The components packaged in this kit have been assembled and machined for specific types of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals can be found online, at dealerships and parts stores.
