

## GM 4WD 700R AUTOMATIC TO ATLAS TRANSFER CASE

### KIT CONSISTS OF:

No.	Qty	Part No.	Description
1.	1	51-9111	CASTING
2.	1	716020	CROSSMEMBER PLATE
3.	1	716511	O-RING
4.	4	720061	10mm-1.5 STUD
5.	4	720011	10mm-1.5 NUT
6.	2	723720	3/8-16 x 3/4 H.H.C.S ( crossmember plate bolts)

### OPTIONAL ITEMS:

It is possible to utilize the stock 700R-4 mounting location and rubber mount. If you are looking for another option, we recommend our 716055 transmission mount. This mount is sold separately.

**This casting couples a 700R to an Atlas transfer case.**

We have provided a crossmember plate if you choose to use a stock transmission rubber support. This plate bolts to our adapter using the two 3/4" long bolts. The stock rubber support would then be installed on top of this plate with the two support bolts going through the rubber support and our support plate holes, and threaded into the transmission.

**SPECIAL NOTE:** The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
