

MOUNTING PLATE-STEERING BOX

KIT CONSISTS OF:

Optional items

No.	Qty	Part No.	Description
1.	1	716826-BLK	MOUNTING PLATE STRG BOX
2.	3	724326	S.H.C.S. 7/16 -14 X 1-1/2 PLAIN
3.	3	724324	HIGH COLLAR L/W 7/16

The 716826 can be used for manual and power steering boxes. the mounting plate needs to be welded to the Jeep frame. The power boxes that have 4 holes would be installed just using the 3 bolts. The gusset 716832 is a added part to add strength to the frame and is sold separately. The holes on the steering box mounting plate are drilled and tapped. The steering box holes are also tapped. You will need to drill out the threads on the steering box to install the box to the plate, Note just the threads on the steering box need to be removed, do not oversize the holes.

SPECIAL NOTE: The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
