

GM 4L60E HEX AUTOMATIC OVERDRIVE TO L/C TOY L/C-HF2A T/C

KIT CONSISTS OF:

No.	Qty	Part No.	Description
1.	1	50-8904A KIT	MARKS KIT 700R TO HF2A T/C(MFK1195A)
2.	1	51-0405	4L60E / UNIVERSAL ADAPTER
3.	2	716079	22mm PLUG
4.	4	720028	S.H.C.S. 10mm-1.5 x 35mm

NOTE: THIS KIT USES A 2WD 4L60E OUTPUT SHAFT (O.A.L. 18-3/16").

NOTE: This kit requires the 2WD output shaft to be shortened. Please note that the cut off location on the output shaft must be made after the 1-1/2" adapter is installed on the transmission. This 51-0405 adapter make the hex pattern 4L60E transmission look just like the square bolt pattern transmission, and the cut off location for the output shaft is shown on this instruction sheet is for the square bolt pattern transmission.

This kit uses the stock 2WD 4L60E tone wheel and the factory sensor from the tailhousing GM 10456520. This sensor mounts to the Mark's 4WD adapter housing.

SPECIAL NOTE: The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
