This bracket is designed to locate the GM clutch pivot ball on the Advance Adapter 712577 and 712576 bellhousings. The pivot bracket bolts to the bellhousing. The support bracket bolts to the pivot bracket, which then is bolted to the transmission. Some linkages may need to be modified to fit properly.

**SPECIAL NOTE:** The components packaged in this kit have been assembled and machined for specific type of conversions. Modifications to any of the components will void any possible warranty or return privileges. If you do not fully understand modifications or changes that will be required to complete your conversion, we strongly recommend that you contact our sales department for more information. This instruction sheet is only to be used for the assembly of Advance Adapter components. We recommend that a service manual pertaining to your vehicle be obtained for specific torque values, wiring diagrams and other related equipment. These manuals are normally available at automotive dealerships and parts stores.
